

Heat Advisory/Watch/Warning Protocol

With the heat advisory for Skagit County through the weekend the protocol is as follows:

≤79°F - regular game play.

80°F-89°F - running clock water breaks at the midpoint of each half.

90°F-99°F - running clock water breaks 10 and 20 minutes into each half.

≥100°F - each half shortened by 5 minutes with two running clock water breaks per half.

Temperature is monitored in the office as well as by the referee assignor.

Tents/benches are provided at each field for players and coaches. There is a water bottle filling station next to the tournament headquarters and the playground.
